CONTENTS OF VOLUME 10

No. 1, March 1983

Decompression incidence in air- and liquid-breathing hamsters. P. R. Lynch, J. S. Wilson, T. H. Shaffer, and N. Cohen 1

Hyperbaric exposure during pregnancy in sheep: staged and rapid decompression. J. R. Willson, W. B. Blessed, and P. J. Blackburn 11

Velocity of ultrasound as an indicator of bubble content. B. A. Hills, B. Kanani, and P. B. James 17

Dentin permeability under hyperbaric conditions as a possible cause of barodontalgia. O. G. Carlson, B. A. Halverson, and R. G. Triplett 23

Mean skin temperature in hyperbaric oxyhelium—its measurement and limitations. P. A. Hayes, E. H. Wissler, and A. Påsche 29

Positive-pressure oxygen breathing and pulmonary atelectasis during immersion. G. O. Dahlbäck and U.I. Balldin 39

Multiphasic health profiles of Navy divers. M. L. Dembert, L. W. Mooney, A. M. Ostfeld, and P. G. Lacroix 45

Comparison of diving experience factors between divers classified as positive and negative for bone cysts. R. J. Biersner and W. L. Hunter, Jr. 63

Book Reviews

Journées d'étude sur la plongée scientifique (Seminar on scientific diving). G. Fredj, P. Roy, and J. Carpine-Lancre, Eds. Reviewed by Arthur J. Bachrach 69

The physiology and medicine of diving (3rd ed.) P. B. Bennett and D. H. Elliott, Eds. Reviewed by James Vorosmarti, Jr. 70

Abstracts 73

No. 2, June 1983

Estimation of oxygen uptake from heart rate response to undersea work. J. Dwyer 77

Failure of naloxone of β-endorphin to affect pressure-induced tremor in guinea pig. S. C. Gilman, M. J. Ackerman, J. M. Hallenbeck, and A. Faden 89

Catecholamine levels in divers subjected to stresses of immersion and hyperbaric exposure. A. R. Manalaysay, H. C. Langworthy, and R. P. Layton 95

Latency changes in the human somatosensory evoked potential at extreme depths. D. M. Simpson, D. J. Harris, and P. B. Bennett 107
Skin antisepsis during steady-state hyperbaric exposure and subsequent decompression. G. Nichols, R. F. Goad, and B. Page 115
Peripheral circulatory responses to acute hyperoxia. J. L. Plewes and L. E. Farhi 123

CASE REPORT

Report of an isolated mid-frequency hearing loss following inner ear barotrauma. F. K. Butler, Jr., and E. D. Thalmann 131

SPECIAL COMMUNICATION

Hyperbaric whole-body plethysmograph for rodents. Y. C. Lin, K. K. Shida, and B. L. Respicio 135

Book Reviews

Professional diver's handbook. David Sisman, Ed.
Reviewed by Jim Joiner 147
Hyperbaric and undersea medicine. Jefferson C. Davis, Ed.
Reviewed by Jon T. Mader 148

Abstracts 149

No. 3, September 1983

In vitro renal transport of organic ions during exposure to hyperbaric helium. A. Small, R. S. Ide, and H. W. McElroy 157
Central nervous system reactions during heliox and trimix dives to 51 ATA, DEEP EX 81. R. Værnes, D. Hammerborg, B. Ellertsen, R. Peterson, and S. Tønjum 169
Pharmacokinetics of antipyrine, paracetamol, and morphine in rat at 71 ATA. L. Aanderud and O. M. Bakke 193
Patterns of wet suit diving in Korean women breath-hold divers. Y. S. Park, H. Rahn, I. S. Lee, S. I. Lee, D. H. Kang, S. Y. Hong, and S. K. Hong ... 203
Gas phase formation and Doppler monitoring during decompression with elevated oxygen. M. R. Powell, W. Thoma, H. D. Fust, and P. Cabarrou ... 217
Fracture studies on a mammalian semicircular canal. R. D. Venter, C. A. Ward, S. Ho, W. R. Johnson, W. D. Fraser, and J. P. Landolt 225
Influence of exercise on maximal voluntary ventilation and forced expiratory flow at depth. D. D. Hickey, C. E. G. Lundgren, and A. J. Påsche 241

SPECIAL COMMUNICATION

Mechanical and physical factors in lung function during work in dense environments. H. D. Van Liew 255

Letter to the Editor 265

Abstracts 267

No. 4, December 1983

Gas inertia and ventilatory measurements under pressure: methodological considerations. D. D. Hickey, D. C. Marky, and R. J. Smith 273

Effects of variations in time pattern of nitrogen addition on development of HPNS in mice. R. W. Brauer and W. M. Hinson 281

Cardiovascular effects of induced decompression sickness in sheep fetus. M. K. Stock, T. M. Phernetton, and J. H. G. Rankin 299

Field study of ventilation in volunteer scuba divers during head-out immersion. J. T. Grismer and M. H. Goodwin 311

Effects of helium-oxygen and hyperbaric helium-oxygen environment on drug-metabolizing enzyme activity in rat liver. J. D. Geiger, T. K. Akers, and S. S. Parmar 321

Pulmonary capillary blood volume during immersion in water at different temperatures. M. L. Choukroun, H. Guenard, and P. Varene 331

Decrease of ether induction time after exposure to dysbaric conditions in rat. J. Conkin and R. E. Schuhmann 343

Properties of red blood cell after multiday exposure to 31 ATA. K. Shiraki, S. Sagawa, N. Konda, H. Nakayama, and M. Matsuda 349

Letter to the Editor 359

Abstracts 361
